

FOOTPRINTS DECLUTTERING SERVICE

The Footprints Decluttering Service (FDS) assists individuals who are facing challenges within their lives due to the impact of hoarding and/or squalor. FDS works alongside the individual to provide a person-centred response to support their needs and goals, aspiring to improve the individual's overall quality of life.

FDS is a fee-for service program - NDIS and HCP packages can be used to fund support. FDS is available to support individuals throughout Brisbane and surrounding areas.

Developed from evidence-based practice, Buried In Treasures with Cognitive Based Therapy foundations, FDS provides an intervention aimed at creating effective long-term changes in behaviours and thoughts associated with hoarding.

FDS strives to empower clients to take control of their recovery and hoarding behaviours, through encouragement and active participation.

FDS OFFERS:

Case Management:

Provides recovery based, collaborative and person centred supports.

In Home Support Workers:

Will work one-on-one with individuals to directly assist with decluttering and organising their belongings.

Please contact Footprints if you wish to speak to someone in our team.
