

ABOUT FOOTPRINTS

Footprints Community is a well-regarded not-for-profit provider of community-based services, working in the community for over 30 years. We specialise in working with older people, those that experience disability, mental illness, as well as those who are at risk of homelessness.

Footprints adopts a non-discriminatory practice and working alongside people with respect and dignity, to enhance their capacity to live independently in the community, is integral to our service.

Our professionally qualified and highly skilled workforce operate within a client-centred practice framework ensuring principles of strengths-based practice are implemented into service delivery.

We believe in independence, strength and choice. We work with people and their representatives, at their own pace, to empower and support people to reach their goals.

CARE COORDINATION SERVICE

A FOOTPRINTS COMMUNITY
SOCIAL PRESCRIBING PROGRAM

Community-based care coordination

WHAT IS SOCIAL PRESCRIBING?

Social Prescribing is a new approach to holistic health care. Social Prescribing can connect you to local community supports with the aim of improving your health and wellbeing in a way that is meaningful to you.

This might include linking you to supports around healthy living, social groups and activities, advice, support, and service navigation.

Our Link Workers are skilled at building relationships, are well connected to your local area and have the knowledge to navigate both government systems and community services.

WHO IS CCS FOR?

People with chronic health conditions that have additional stressors in their lives, for example:

- difficulties managing appointments and medication
- financial and housing matters
- relationship and family factors
- caring for others
- language or cultural barriers.

The service supports a broad variety of adults that may be living in isolation, be from diverse backgrounds, or have vulnerabilities that make it difficult to coordinate their health care and services.

THE PROGRAM OFFERS:

- personalised links to health services and community supports in your local area
- support to increase independence and self-management of chronic health conditions
- support to manage barriers to health care for example housing or finances
- support and guidance to navigate the Australian health care systems, as well as the National Disability Insurance Scheme (NDIS), My Aged Care and Centrelink
- information and advocacy
- clear communication between you and your health care providers.

ELIGIBILITY CRITERIA:

This service is for people who:

- are 18 years and over
- have 1–4 chronic disease(s) whose primary presenting medical concern is a chronic condition that is not mental health related
- are experiencing social challenges or complexity impacting management of medical conditions
- are not currently frequently hospitalised but considered to be at “rising risk”
- a GP is the main party responsible for the person’s clinical health care
- lives in the [Brisbane South PHN region](#) (metropolitan areas).
